

The MINITOR IV pager is a robust performer with enhanced functionality and dependability. Rugged one-piece construction and large knobs allow for convenient use by public safety personnel — even while wearing gloves. And you can keep customers' pagers ready on demand with the replacement parts on the back of this sheet.

- Redesigned Function Select switch enables users to feel a firm, solid click when toggling between functions.
- Field Programmable Function Switch allows users to adapt pager capabilities to meet changing requirements.
- Monitor Mode allows users to listen to all communication on the selected channel.
- 2-Channel MINITOR IV enables users to scan both channels for pages while giving priority to pages received on channel 1.
- UL Certified as intrinsically safe for use in hazardous classified locations, and meets MIL standard 810 F Procedures II for rain.

MINITOR IV
